

November presentation:

# Forensic Pathology in Colour

When faced in the mortuary with cases of sudden unexpected death and sometimes limited circumstantial information, colour changes can provide clues to underlying disease and causes of death.

Forensic Pathologists Dr. Stephen Wills and Dr. Karen Heath will present a series of cases where noticing sometimes subtle colour changes at autopsy led to interesting and sometimes unexpected diagnoses.

Wednesday 3rd November 2021

6:30pm for a 7pm start

Flinders University City Campus  
Victoria Square, Level 2, Room 2.1

Members free, \$10 non-members
